HAPPY SPRING TO YOU'ALL!

We at the Sweat Institute for Atlas Orthogonal Chiropractic wish you and your families a very Healthy and HAPPY BEAUTIFUL time of the Year!

We know how allergies and pollen can affect everyone. Make sure you stay in AO adjustment, it helps your sinus passages and makes breathing easier! Keep in mind with your Atlas in place, your entire body will function better!!!!

Research supports that all adults and children should take multi- vitamin supplements:

Here are some of the key observations made by the researchers and us:

- A large number of individuals do not observe recommended intake of five fruits and vegetables a day. A multivitamin would significantly offset the health risks associated with inadequate diet.
- *Vitamin C supplements and antioxidants can be extremely helpful at this time of year with sinus, allergies and spring/summer colds...Dr. Matt and Tecla take 1000-3000mg every night (Be sure to take with or after food!)*
- *A Neti-Pot was recommended to Tecla by one of our patients and he is our Optometrist, Dr. T. Reagin. It looks like a small teapot and you add warm salt water and literally run it up and through both sides of your nose once to three times a day. Very effective to clear your passages from the pollen and daily antigens that are in the air.*
- The low cost associated with multivitamins make them a convenient and affordable choice for disease prevention. A multivitamin provides low daily levels of many vitamins, reducing the risk of overdosing on individual vitamins.

Many of the Nutritional & Health Food stores will help you with any of your questions and problems...A wide variety of natural, herbal, vitamins and mineral supplements are available. Just ask ! Or go online So use proper care when taking vitamins..... And of course make sure to have your Atlas checked to stay in alignment.

BEING GRATEFUL AND THANKFUL FOR OUR LIVES AND OUR DAILY BLESSINGS ALSO WILL KEEP US POSITIVE AND MORE HEALTHY...Try writing down what you are grateful and Thankful for everyday or even once a week. You will surprise yourself.

(Tecla found this in a beautiful Spiritual book she was reading , Worn Out Woman!

I'm Thankful for..

Be Thankful for all these things and add your list of thanks!

We all need to look to each day with a smile on our face and be as Positive as we can be...Rent the Movie, **Pay It Forward** and try to practice Random Acts of Kindness. Tecla saw this movie and paid for the cars lunch behind her as they finished placing their order at a drive through...You can do it too! Just letting someone go in front of you at the grocer line can feel like a Random Act of Kindness. Share with us your Random Acts of Kindness and we will share them with all of you!

Come meet with Sara_Shipe (Our Massage Therapist at the Sweat Institute)

She has ½ hour specials and 1 hour specials!!!! Ask us about them!!

Hello Sweat Clinic Family!

Most of you know me, however, for those who don't, my name is Sarah Shipe. I have been a patient at Sweat Clinic for 20 years and practicing Massage Therapy for seven, including two years here. I am returning my practice to Sweat Clinic and wanted to take a moment to introduce my Massage Philosophy and myself.

I have focused my massage career in a practice called Myofascial Release (MFR). I have found this technique to be the most productive when dealing with muscular discomfort. MFR looks at the body as a whole. It takes the patients past and present situations to determine the source of muscular pain. I also integrate NMT (neuromuscular therapy) into the session, which is, simply put, a deep massage. The two therapies together along with Atlas Orthogonal Chiropractic could enhance and expedite a more relaxed, pain free life style. I also do soft, Swedish Massage, so we can make the decision together. I can't wait to meet each and every one of you and I'm happy to be back with this spectacular team of people at Sweat Clinic.

Best Wishes,
Sarah Shipe
